

CABINET SCREWS

SPAX® Cabinet Screws are a unique, quality fastener engineered to ensure a secure, aesthetically-pleasing installation of fine cabinetry.

- Large, low-profile head design provides increased load bearing area.
- T-STAR Plus drive promotes superior bit engagement, especially for overhead work.
- Patented 4CUT™ Point prevents splitting without pre-drilling.
- Patented thread serrations minimize driving torque to prolong power tool battery life.
