

MULTI-MATERIAL CONSTRUCTION SCREWS

SPAX® Multi-Material Construction Screws are the versatile fastening solution for a wide range of interior applications in multiple materials, including wood, dry wall, masonry, sheet metal, and plastic. Available in both flat head and pan head styles in zinc and yellow zinc coatings.

- Heat treated Grade 5 durability.
- Patented thread serrations reduce driving torque to prolong power tool battery life.
- Patented 4CUT™ Point prevents splitting and requires no pre-drilling in wood.
- Available in both Unidrive (Phillips and Sq. Drive combo) and T-STAR Plus drive styles.
