

PRODUCT HIGHLIGHT

POWERLAGS®

TRUSS/RAFTER TO PLATE CONNECTION FASTENER

SPAX® engineered fasteners are skillfully designed and tested to increase productivity and keep connections held together stronger for longer.

PowerLags® reduce pre-drilling and driving torque by up to 40% while still getting 100% quality and strength – unlike any other conventional lag on the market.

THE IDEAL REPLACEMENT FOR HURRICANE CLIPS

Truss plate removed for clarity.

APPLICATIONS

- Interior Framing
- Stud/Double Top Plate/ Truss-Rafter Connection
- Double Top Plate/ Truss-Rafter Connection (between studs)

The truss/rafter fasteners will be packaged in a high-resolution graphic Contractor Pax® 50 count carton ready for retail shelves and will include a 2" long T30 plus bit.

LENGTH	DRIVE BIT	QTY.	PKG. TYPE	PART NUMBER
#14 x 6-1/4"	T30 plus	50	Contractor Pax®	42110106016045
		500	Bulk Pail	32110106016040

Material - Carbon Steel Coated with Exclusive SPAX® WIROX® Coating System. Ideal for Interior Applications

SPAX® T-STAR plus

Provides superior bit engagement to eliminate camming out and to facilitate single hand, overhead driving.

PATENTED THREAD SERRATIONS

Patented thread serrations dramatically increase installation speed.

CYLINDRIC HEAD

The new construction fastener has a low splitting effect and pulls flush into the wood.

UNIQUE 4CUT™ POINT

For quick and easy installation with no pre-drilling.
