

DECK TAPE

JOIST AND BEAM TAPE

- Strong, durable, and flexible, with UV Resistant facer.
- Forms a tight seal around deck fasteners to prevent moisture penetration.
- Stable at high temperatures without drips, stains, or oozing.
- Ridged polyethylene surface is slip resistant.
- Fast and simple installation; easy to remove release liner.
- Apply to horizontal and vertical surfaces including all joists, beams, stair stringers, ledger board and other surfaces.
- Stock available in 2 widths: 1-5/8" (4.13 cm) Joist Tape for joists and 3-1/4" (8.26 cm) Beam Tape on all double joists and beams.

SPAX® Deck Joist & Beam Tape is designed to extend the life of wooden decks. Placed directly on top of joists and beams, it acts as a moisture barrier. The tape stays in contact with the wooden deck framing and helps deter decay and wood rot caused by moisture that runs off the deck boards. The UV resistant polyethylene facer and butyl rubber adhesive seals around fasteners, including SPAX® brand. SPAX® Deck Joist & Beam Tape is compatible with most deck materials including pressure treated wood and composite products.
